RESEARCH EXPERIENCE

Research Assistant at University of Oxford <i>Curated repository of methods for practitioners to apply value sensitive design and responsible innovation principles in product development.</i>	May 2022–August 2022
Research Assistant at University of Oxford <i>Conducted review on approaches to dynamically adjust autonomy in robotic agents. Developed variable autonomy framework based on responsible innovation.</i>	January 2022–May 2022
Research Assistant at Rhodes AI Lab <i>Collaborated with UN World Food Program to identify technology interventions for food aid processes. Conducted interviews with researchers in development economics and computer science to inform interventions. Developed implementation approach for satellite image analysis application to detect informal settlements in urban environments.</i>	January 2020–June 2020

TEACHING

Teaching Assistant at University of Oxford <i>Ethical Computing in Practice</i>	Hilary Term 2023
Teaching Assistant at University of Oxford <i>Computers in Society</i>	Hilary Term 2022

SCHOLARSHIPS AND AWARDS

- Full Scholarship for DPhil in Computer Science 2021–2025
- Saïd Business School, Top 5% of Cohort 2019–2020
- Saïd Business School, Dean's List 2019–2020
- Rensselaer Polytechnic Institute Leadership Award 2012–2016

SERVICE

Lead at Responsible Technology Institute Student Network 2020–Current

Coordinate international and interdisciplinary network for graduate students interested in responsible technology. Facilitate reading groups, work-in-progress seminars, and panel discussions.

Chair at Oxford Business Network for Technology 2019–2020

Led a professional development organisation of 160 students. Coordinated employer presentations, on-site visits, and skill development workshops. Facilitated responsible innovation workshop with Oxford academics and industry experts.

PROFESSIONAL EXPERIENCE

PhD Associate at UK-based Consultancy October 2021–Present

Conduct collaborative research on the use of machine learning systems in health and social care. Company name redacted to preserve anonymity of research participants.

Senior Consultant at Deloitte September 2018–September 2019

Led, managed, and advised global cross-functional teams through cyber security software implementations. Initiated and led development and facilitation of firm-sponsored training for colleagues.

Consultant at Deloitte September 2016–September 2018

Collaborated with global teams to create marketing, methodology, and engagement accelerator content for 3 expanding service offerings. Gained expertise across critical areas of consulting, including presentation story line creation, professional services proposal responses, and project management skills.
